Implementing the SDGs in Kazakhstan

Алматы 2019

Implementing the SDGs in Kazakhstan

- ✓ UN General Assembly – the adoption of the Sustainable Development Goals until 2030, September 2015
- ✓ UN experts conducted a Rapid Assessment of Readiness for the SDGs Implementation Process (MAPS Mission), November 2016.
- ✓ In July 2019, at the High Level Political Forum on Sustainable Development in New York, Kazakhstan will present the first **Voluntary National Review on “Empowering People and Ensuring Integration and Equality”** to achieve SDGs 4, 8, 10, 13, 16 and 17.
- ✓ Kazakhstan’s Government adopted the **“National Mechanism for the Implementation of SDGs”**, which provides for the following structure: the governing council at the level of deputy prime minister and five interdepartmental groups, August 2018.
- ✓ Under the leadership of the Vice Prime Minister, was approved **The Coordination Council**, November 2018.

The challenges associated with national SDG indicators

- ❖ selection principles;
- ❖ quality issues and comparability of data across countries;
- ❖ in terms of organizational issues we need:
 - to strengthen coordination among data producers
 - to increase the capacity of statistical systems (funding, additional staff, training the staff).

The next are examples of emergency response indicators.

Global Indicators (SDG 1, 11 and 13):

- The Number of deaths, missing persons and directly affected persons attributed to disasters per 100,000 population
- Direct economic loss attributed to disasters relative to GDP
- The Number of countries adopting and implementing national disaster risk reduction strategies in accordance with the Sendai Framework for Disaster Risk Reduction 2015-2030
- The Number of local governments that adopt and implement local DRR strategies in line with national strategies

National indicator:

- The Level of infrastructure provision in emergency response

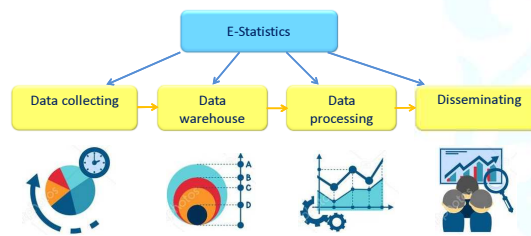

Future plans on SDGs monitoring

- Harmonize the national system of indicators for monitoring SDGs (with baseline and target values)
- Support the preparation of the first Voluntary National Review on Achieving the SDGs
- Develop a national roadmap on SDGs statistics
- Develop a national platform for reporting on SDG indicators

About the ICT and geographic information systems in statistics:

Administrative data integrating

As part of the integration, system receives information:

- ✓ about administrative-territorial units
- ✓ internal and external migration of the population
- ✓ registration of legal entities, as well as information about taxpayers
- ✓ civil registration of the population
- ✓ residential and non-residential property
- ✓ medical birth, death and prenatal death
- ✓ pensions and social payments
- ✓ agricultural land
- ✓ livestock (cattle)
- ✓ oil and gas production

Analytical system "Taldau"

<https://taldau.stat.gov.kz>

"Taldau" is an interactive system for the provision of relevant statistical information on statistical indicators of the Committee on Statistics.

Statistical information has been updated to "Taldau" since 2000, and it is also planned to fill the database with historical data since 1990.

ГО-СТАТИСТИКА ПОКАЗАТЕЛИ

Численность населения на начало периода, человек, 05.2019

СПИСОК ПОКАЗАТЕЛЕЙ

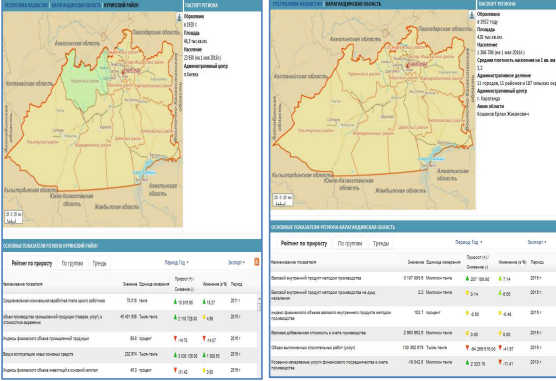

- Национальное хозяйство
- Численность населения на начало периода
- Средний возраст населения
- Величина промышленного имущества
- Производительная версия
- Индекс потребительских цен
- Нарядное финансовое состояние инвентаря и основной капитал
- Объем произведенной продукции, выполненной работ и оказанных услуг
- Инвестиции в строительство по направлениям использования
- Коэффициенты демографической нагрузки
- Среднемесячная номинальная заработная плата одного работника
- Объем производств промышленной продукции (товаров, услуг), в стоимостном выражении
- Объем выбросов загрязняющих веществ в атмосферу
- Валовой внутренний продукт нетто по производству
- уровень безработицы
