

Department of Census and Statistics in collaboration with Ministry of Disaster Management, Sri Lanka

Implementation of Disaster Related Statistics Framework of Sri Lanka

16th TWG meeting on disaster-related statistics on Wednesday, 30th March 2022

Presented by:

Ranjith Weerasekara Statistical Officer

Statistical Unit State Ministry of Disaster Management Sri Lanka.

Establishment of Institutional Structure:

- Establishment of a DRS unit affiliated with the Cartography Division of DCS
- Establishment of a Environment Statistics unit affiliated with the Agriculture Statistics Division
- Establishment of a Statistics Unit in the Ministry of Disaster Management and attachment of a Technical Officer from the Census Department.

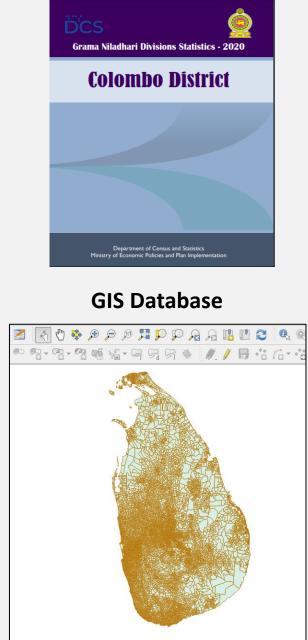

Capacity development program:

- Awareness of higher level officers of the DCS regarding DRSF
- Awareness of District Officers and field officers of the DCS and DMC, NDRSC, NBRO, MET dept, ICTA regarding DRSF with the collaboration of WFP, ESCAP APCICT virtual Academy and AIT, Thailand.

Recent achievements: GN Information Database

Type of the Disaster

1.	Floods	9.	Damage caused by other wild animals
2.	Landslides	10.	Fires
3.	Candle crashes	11.	Canal over flooding
4.	Storms/hurricanes	12.	Sinking/building cracks/earthquakes
5.	Lightning struck	13.	Drying of water springs
6.	Drought	14.	Noise pollution/Air pollution/Water pollution due to industrial/project implementation
7.	Rolling stones	15.	Other
8.	Damage caused by wild elephants	16.	No Disaster

A GN Division may have experienced different type of disasters during the period of 10 years before the data collection in 2020. The above Table 5.1 indicates aggregated statistics for DS Division level and one GN Division may have faced more than one disaster therefore total does not equal to 557. Majority of GN Divisions reported storms/hurricanes, floods and Canal over flooding. etc.

2. Availability of Basic facilities

This section presents the information on the availability of basic facilities within the GN Division and on the distance to the nearest location where the basic facilities are available. Data collects on six facilities as follows:

1. Transport

Public transport (bus) start/end destination, railway station, three -wheel park, boat/ferry jetty, road which transport buses/ vans/ lorries across or near the GN Division

2. Health

Government or private hospital, government or private dispensary, maternity clinic/ baby clinic, MOH's office

3. Education

Government or private school which offers classes for A/L, government or private school offering classes for O/L, kindergarten/ pre-school/ early childhood development centre

4. Communication

Government post office/ sub post office or agency post office, Vidhatha Centre/ Nena Sala Centre, communication centre

5. Facilities provided by Local government

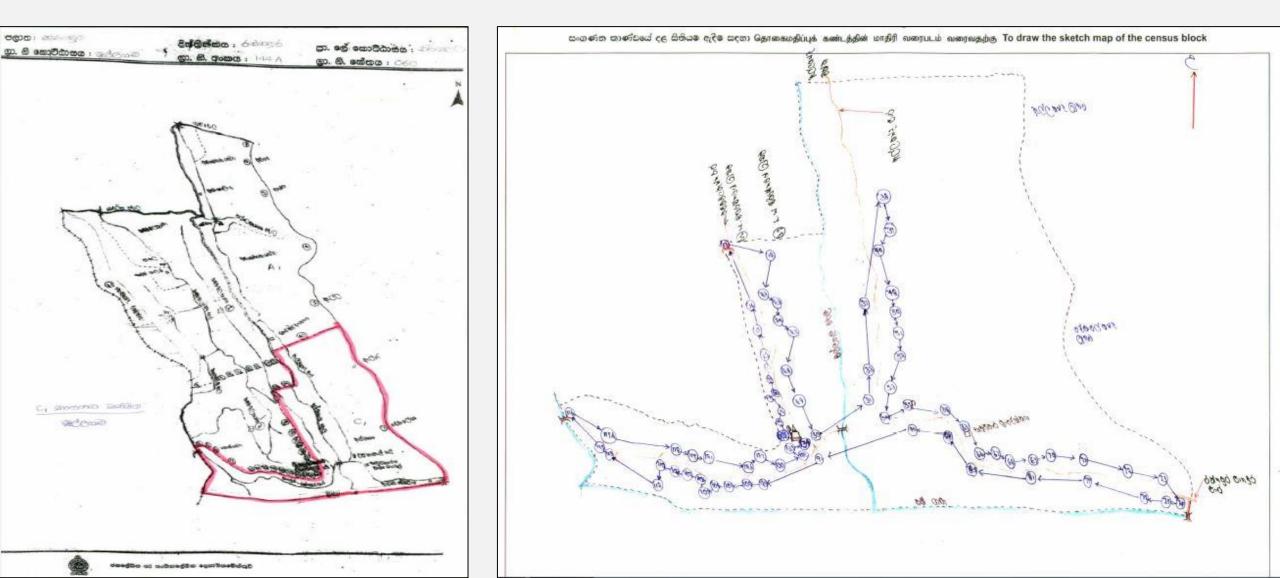

Public playground, Children park, Praja Shalawa, Public Library/ Reading Room, Cemetery, Marketplace/ Fair/ Public Store

6. Other facilities

Branch of government or private bank, Filling station, Police station, DS office, Local government office

Preparation of New Census Blocks Digital Map Using GIS Technology for 2022 Population and Housing Census

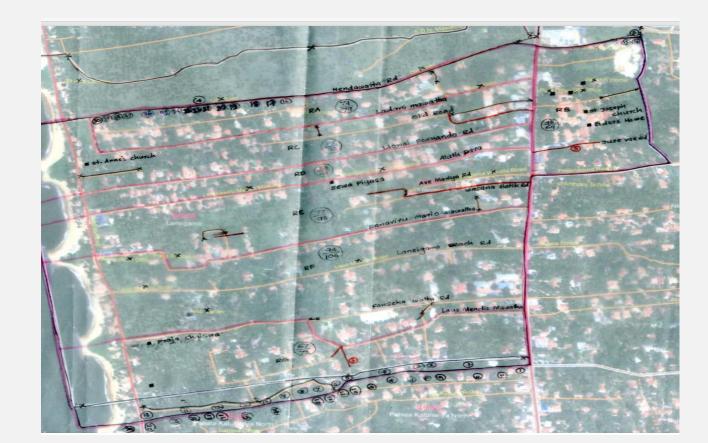

- 1. Scanned all maps drawn by GNs for the Census of population and housing 2011
- 2. Downloaded satellite images covering entire country
- 3. Created a digital map in the cartography division included geographic features considerably.

DCS

Verification of Grama Niladhari Division(GND) Boundaries and Geographic Features of Maps in the Field and Demarcation of the Census Blocks.

- GND boundaries were checked, corrected and certified
- Geographical Features were checked, corrected and certified

Demarcation of Census Blocks

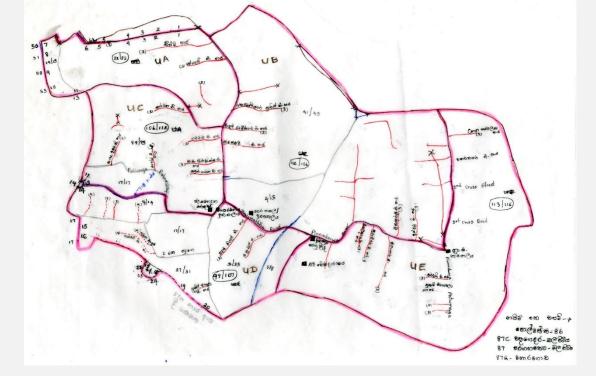

A Census block is,

A small area of land with a set of buildings separated by clear boundaries so that an enumerator can collect information within a specified period of time.

Census blocks were demarcated considering number of census units and easy access to the block

1. Urban	-	100 -	- 120
•			100

- 2. Rural 80 100
- 3. Estate (Rural) 80 100
- 4. Estate (Urban) 80 100

Measures to Increase Accuracy of the Maps

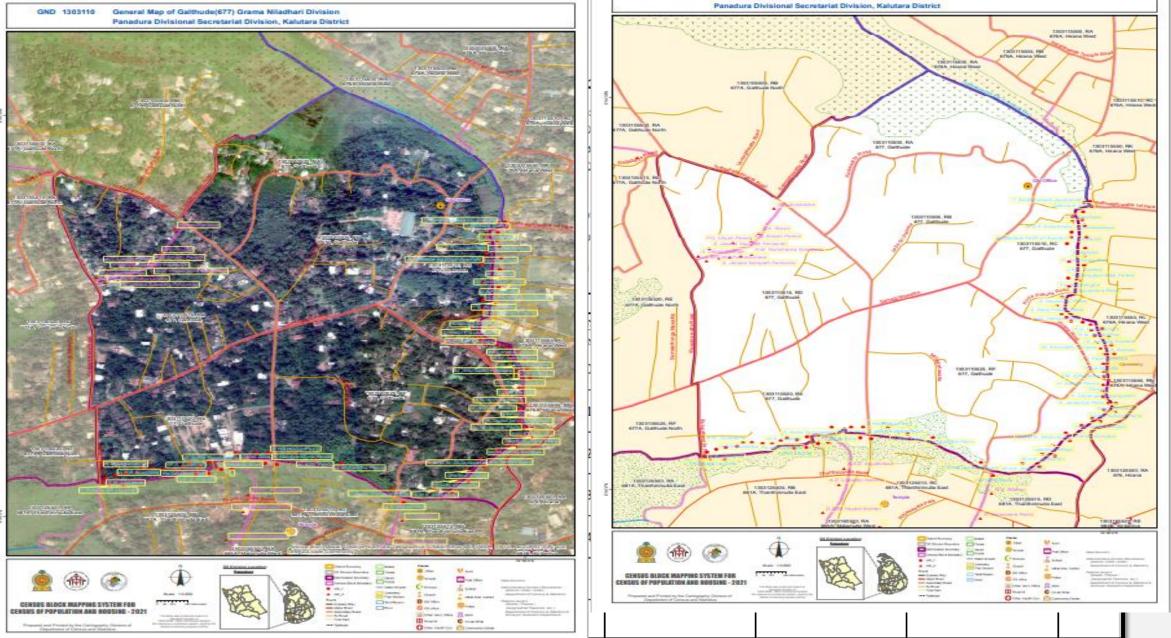

Tested practically satellite image map in the Gonapeenuwala DS division in Galle District.

➢Conducted pre test using all documents and maps in the Kelainiya and Horana DSDs in Gampaha and Kalutara districts respectively.

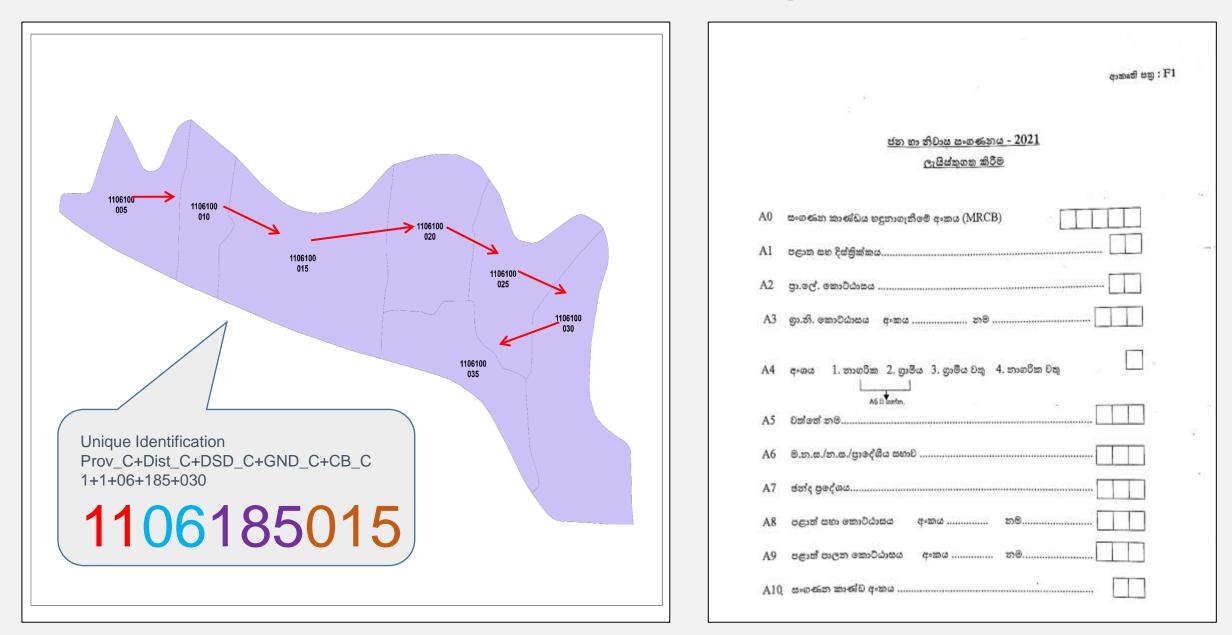

➢Given 3-6 months for checking GND boundaries and demarcating census blocks for improving accuracy level of the maps.

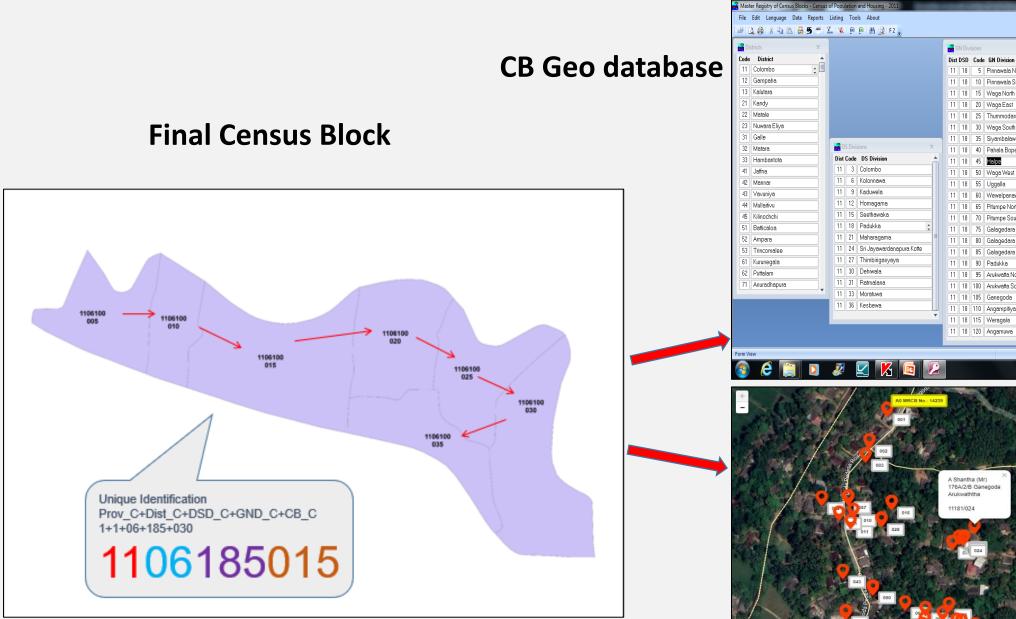

The Format for Unclear GND Boundaries.

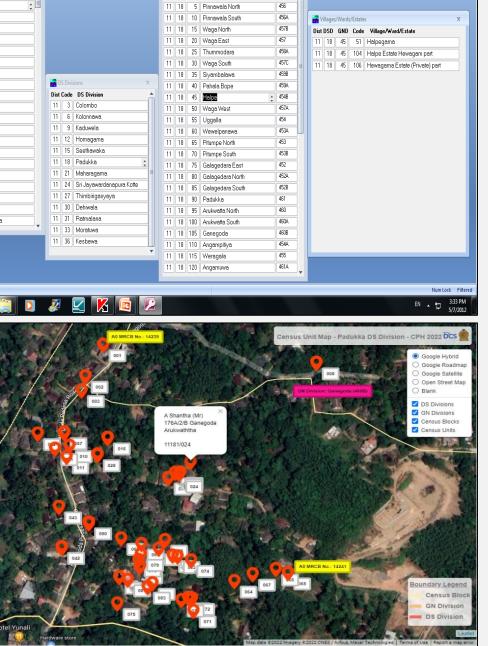

Census Block Codes with Unique Code
