

Proposal for implementing the TWG activities for 2022

Strategic meeting of the TWG on Disaster-related
Statistics

Wednesday, 27 July 2022, 14:00 – 15:00 hours, Bangkok time

Five-year strategic plan for TWG

Strategic aims and objectives

1. **Strengthening members' technical capacity**
2. **Contributing to the development of internationally-agreed standards**
3. **Supporting members' governance of disaster statistics**

2022 “Demonstration” proposed plan (March 2022)

Proposed Topics for TWG Meetings 2022	Disaster-related Statistics by DRSF Tables	
Occurrence statistics	Occurrence statistics	
Meeting 01: Producing statistics for disaster occurrences	Table A: Summary of disaster occurrences	
Topics: 1) Hazard classification; 2) Hazard mapping	Table A1:	Summary table of disaster occurrences, by hazards types, scale, and geographic region
Background statistics and exposure to hazards	Background statistics and exposure to hazards	
Meeting 02: Identifying data needs for background statistics and exposure to hazards	Table B: Selected Background Statistics and Exposure to Hazards	
Topic: Basic categories for disaggregated statistics	Table B1a:	Population Background Statistics and Hazard Exposure by geographic regions
	Table B1b:	Population Exposure by social groups
	Table B2a:	Exposure of Land and Infrastructure by Hazard Type
	Table B3:	Disaster Risk Reduction Expenditure Account: Coping Capacity Background Statistics
Impact statistics	Impact statistics	
Meeting 03: Producing human impact statistics	Table C: Summary of Human Impacts	
Topic: Statistics on human impacts	Table C1:	Summary table of human impacts by hazard type
	Table C2:	Summary of human impacts by hazard type and geographic regions
	Table C3:	Summary table of affected population by demographic and social categories
Meeting 04: Producing direct material impact statistics	Table D: Summary tables of direct material impacts	
Topic: Statistics on direct material impacts	Table D1a:	Summary table of direct material impacts by hazard type
	Table D1b:	Summary table of direct material impacts by hazard type and geographic region
	Table D2a:	Disruption of basic services from a Disaster by hazard type
	Table D2b:	Disruption of basic services from a Disaster, by geographic region
Meeting 05: Producing direct material impacts in monetary terms	Table E: Summary tables of direct material impacts in monetary terms	
Topic: Statistics on direct material impacts in monetary terms	Table E1a:	Direct material impacts by hazard type
	Table E1b:	Summary table of direct material impacts by hazard type and geographic region
Meeting 06: Reporting material impacts to agriculture and direct environmental impacts	Table F: Material impacts to Agriculture	
Topic: Reporting material impacts to agriculture and direct environmental impacts	Table F1:	Summary of material impacts to Agriculture by hazard type
	Table G: Summary tables of direct environmental impacts	
	Table G1:	Summary table of direct environmental impacts by hazard type at country level
	Table G2:	Summary table of direct environmental impacts by hazard type and geographic region
Expenditure statistics	Expenditure statistics	
Meeting 07: Identifying data needs for disaster risk reduction expenditure account	Table DRRE: Disaster Risk Reduction Expenditure Account	
Topic: Identifying data need for disaster risk reduction expenditure account	Table DRRE_A:	Production expenditure account (current plus investment) by activity
	Table DRRE_B:	Transfers expenditure account & DRR National Expenditure

Implementing 2022 activities

- **Current approach**

- Presentations by identified speakers relevant to the topic of the month followed by Q&A

- **Proposed approach**

- Members to review DRSF tables with key national stakeholders
- Summarize experiences on
 - What cells can be filled with no or minimal data/methodological issues? What are your data sources? Who do you collaborate with?
 - What are data/methodological/institutional challenges for the other cells?
 - What data do you wish to include in the tables that are currently not listed in DRSF to support relevant DRR plans/strategies/policies and Sendai/SDG monitoring?
- Share the experiences with TWG followed by open dialogue/reflections from the group.

What does it mean?

- **TWG meetings to be conducted every two months**
 - To allow more time for the review and inter-departmental discussions
- **Tangible results**
 - Expected output
 - Documentation of Asia-Pacific experiences, challenges and potential solutions for disaster-related statistics
 - Expected outcomes
 - Members' technical capacity is strengthened
 - Asia-Pacific good practices and priorities are clearly conveyed to international standard setting processes
 - Interdepartmental collaboration is improved

How does it work?

- 1. Select tables or table groups (week1)**
 - Following March 2022 proposed plan
- 2. Members to nominate/volunteer (week1)**
 - Suggest 2-3 countries
- 3. Members to review the tables with key stakeholders (week2-7)**
 - NDMA+NSO and potentially other key stakeholders
 - Suggest 2-3 90-minute sessions over 6 weeks
 - Technical support by TWG Secretariat including regular meetings
- 4. Members to document and share their experiences at TWG meetings (week8)**
 - Other members to reflect on the experiences from their own national statistical systems' perspectives.

How does it work?

Week 1

1. **Select tables** or table groups

- Following March 2022 proposed plan

2. Members to **nominate/volunteer**

- Suggest 2-3 countries

Week 2-7

3. Members to **review the tables** with key stakeholders

- NDMA+NSO and potentially other key stakeholders
- Suggest 2-3 90-minute sessions over 6 weeks
- Technical support by TWG Secretariat including regular meetings

Week 8

4. Members to **document and share their experiences** at TWG meetings

- Other members to reflect on the experiences from their own national statistical systems' perspectives

Modality for updating TWG membership

- **New registration**
 - forms.office.com/r/Jmz30cuvnB
- **Opt-out**
 - forms.office.com/r/NvkQUvRv8c
