Proposed approach

- Members to review DRSF tables with key national stakeholders
- Summarize experiences completing the tables
- Share the experiences with TWG + open dialogue/reflections from the group.

What does it mean?

- Meetings every two months
- Tangible results
 - Documentation of Asia-Pacific experiences
 - Members' technical capacity strengthened
 - Asia-Pacific good practices and priorities clearly conveyed to international standard
 - Interdepartmental collaboration improved

How does it work?

1. Select tables or table groups (week1)
2. Members to nominate/volunteer (week1)
3. Members to review the tables with key stakeholders (week2-7) (with technical support by TWG Secretariat)
4. Members to document and share their experiences at TWG meetings (week8)
