Asia-Pacific Stats Café

Improving economic indicators with big data

Monday, 30 November 2020
14:00-15:00h
Bangkok time (GMT+7)

STATS CAFÉ

Good coffee makes your day,
but good data helps you decide.

About this session

This session will explore how the NSOs use big data and data science in the production and improvement of economic indicators (i.e., scanner data and web scraping for the CPI) and how they develop data partnerships with the private sector.

Tanja Sejersen

Statistician
Statistics Division
UN ESCAP
