

Release of report on "Emerging trends in census approaches in Asia and the Pacific"

It is our pleasure to announce the release of the ESCAP Statistics Divisions report on "Emerging trends in census approaches in Asia and the Pacific." This report showcases how some countries in Asia and the Pacific have approached the use of administrative data in population censuses.

Please access the report at <https://www.unescap.org/kp/2022/emerging-trends-census-approaches-asia-and-pacific-country-examples>.
